**Step 1**
Install the flooring planks including the underlayment by leaving a 1” inch (25mm) gap for the installation of the T-molding.

**Step 2**
Center the U-Track between the two laminate floors and screw it to the sub floor by using 4x3/4” screws.

**Step 3**
Gently press the molding into the track starting from one end to the other just like you would close a Zip-Lock bag.

!!! Do not try to push the entire molding in all at once by just pressing it in from top !!!

---

**Use Versatrack (Metal Track) for 6 - 9.5 mm floors.**

- **Laminate Flooring**
- **Sub Floor**
- **Metal Track**

---

**Use Versatrack & Versatrack Shim for 9.5 - 12.3 mm floors.**

- **Laminate Flooring**
- **Sub Floor**
- **Shim**
- **Metal Track**
Step 1
Install the flooring planks including the underlayment by leaving a 1” inch (25mm) gap for the installation of the T-molding.

Step 2
Center the U-Track between the two laminate floors and screw it to the sub floor by using 4x3/4” screws.

Step 3
Gently press the molding into the track starting from one end to the other just like you would close a Zip-Lock bag. 

!!! Do not try to push the entire molding in all at once by just pressing it in from top !!!

Use the white Thick-Track for 9.5 - 12.3 mm floors. Use the same molding, it is just a different track.

Step 1
Install the flooring planks including the underlayment by leaving a 1” inch (25mm) gap for the installation of the T-molding.

Step 2
Center the U-Track between the two laminate floors and screw it to the sub floor by using 4x5/8” screws.

Step 3
Gently press the molding into the track starting from one end to the other just like you would close a Zip-Lock bag. 

!!! Do not try to push the entire molding in all at once by just pressing it in from top !!!
